Blackfriars Medical Practice - St Andrews

This report gives a summary of the results of the Health and Care Experience Survey 2015/16 for Blackfriars Medical Practice - St Andrews.

The survey asked questions about people's experiences during 2015/16 of making an appointment; visiting the GP practice; seeing staff; being prescribed medicines; out of hours healthcare; other care services; and being a carer. A copy of the survey is available at:

www.gov.scot/Topics/Statistics/Browse/Health/GPPatientExperienceSurvey/HACE2015-16

108 patients of Blackfriars Medical Practice - St Andrews sent in feedback on their experiences at the practice. Of the patients that answered questions about themselves:

- 19% were aged 17-34, 8% were aged 35-49, 29% were aged 50-64 and 44% were 65 and over;
- 69% did not have any limiting illness or disability.

The survey was commissioned by the Scottish Government as part of the Scottish Care Experience Survey Programme, which aims to use the public's experiences of health and care services to improve those services. The survey was managed by the Scottish Government in partnership with Information Services Division (ISD) of NHS National Services Scotland. The survey was carried out by a patient survey contractor, Quality Health Ltd.

The results of the survey will be used by GP practices, Health Boards, Health and Social Care Partnerships and the Scottish Government to improve the quality of health and care services in Scotland.

Results for some questions may be suppressed due to low number of responses. These are typically the questions relating to social care services and caring. Results for such questions can be found in the relevant Health and Social Care Partnership/Board Report.
