Upper Nithsdale Group Practice, Health Centre - Sanquhar

This report gives a summary of the results of the Health and Care Experience Survey 2015/16 for Upper Nithsdale Group Practice, Health Centre - Sanquhar.

The survey was sent to 664 people registered with the practice.

The survey asked questions about people's experiences during 2015/16 of making an appointment; visiting the GP practice; seeing staff; being prescribed medicines; out of hours healthcare; other care services; and being a carer. A copy of the survey is available at:

www.gov.scot/Topics/Statistics/Browse/Health/GPPatientExperienceSurvey/HACE2015-16

117 patients of Upper Nithsdale Group Practice, Health Centre - Sanquhar sent in feedback on their experiences at the practice. Of the patients that answered questions about themselves:

- 44% were male and 56% were female;
- 7% were aged 17-34, 9% were aged 35-49, 36% were aged 50-64 and 48% were 65 and over;
- 54% did not have any limiting illness or disability.

The survey was commissioned by the Scottish Government as part of the Scottish Care Experience Survey Programme, which aims to use the public's experiences of health and care services to improve those services. The survey was managed by the Scottish Government in partnership with Information Services Division (ISD) of NHS National Services Scotland. The survey was carried out by a patient survey contractor, Quality Health Ltd.

The results of the survey will be used by GP practices, Health Boards, Health and Social Care Partnerships and the Scottish Government to improve the quality of health and care services in Scotland.

Results for some questions may be suppressed due to low number of responses. These are typically the questions relating to social care services and caring. Results for such questions can be found in the relevant Health and Social Care Partnership/Board Report.

National results for this survey and further details on the methods used to generate this report are available at:

www.gov.scot/Topics/Statistics/Browse/Health/GPPatientExperienceSurvey/HACE2015-16

Summary of Results

This section provides the results for the five overarching questions where patients were asked to rate the care that they received overall. Positive scores for these questions are based on the combination of the 'Excellent' and 'Good' answers.

The difference between the percent positive score for the practice and the Scottish average is shown in the final column. Differences which are statistically significant are marked with an S.

Overall, how would you rate the arrangements for getting to see a doctor in your GP practice?

Arranging to see a doctor	68%	-4
----------------------------------	------------	-----------

Overall, how would you rate the arrangements for getting to see a nurse in your GP practice?

Arranging to see a nurse	84%	+3
---------------------------------	------------	-----------

GP Practice Care	85%	-2
-------------------------	------------	-----------

Overall, how would you rate the care you experienced out of hours?

Out of Hours Care	68%	-4
--------------------------	------------	-----------

Notes on Interpretation

Results are shown as the percentage of patients who answered each question positively.

The bars illustrate the % positive as green (darker green being very positive and lighter green being positive), and the % negative as red. Where answers are neither positive nor negative, the % is shown in yellow (see below).

		Very Positive	Positive	Neutral	Negative	% Positive Practice 2011/12	% Positive Practice 2013/14	% Positive Practice 2015/16	Change from 2013/14	Difference from Scotland
Overall arrangements for getting to see a doctor	112	29%	44%	15%	12%	85%	76%	73%	-3%	+1%

The “% Positive Practice...” columns show the GP practice's 2015/16 percent positive scores along with both 2013/14 & 2011/12 scores.

“Difference from Scotland” shows the difference between the GP practice percent positive score in 2015/16 and the Scottish average in the same year, with a plus or minus sign depending on whether it is above or below the Scottish average.

“Change from 2013/14” shows the change in the percent positive score for the GP practice since the 2013/14 survey.

Differences which are statistically significant are marked with an S.

Where a comparison has not been tested due to small numbers, this is marked with an NT.

The classification of answers as very positive, positive, neutral or negative for each question can be found in the technical report at:

www.gov.scot/stats/bulletins/01218

Later in this report we present results for questions that do not fit into the '% positive' format.

Please note: If an expected question does not appear within this section it is because it has been suppressed due to a low number of responses. If you wish to see results for such questions, please refer to the relevant Health and Social Care Partnership/Health Board Report.

Information Questions

This section shows results for questions that did not fit into the percentage positive format used elsewhere in the report. These tables show the percentage of patients who responded to each answer option. Results for Scotland, and where possible, results from the previous survey are included. If the question was new to this year's survey, the absence of historic results will be indicated by a "-".

Please note: If an expected question does not appear within this section it is because it has been suppressed due to low number of responses. If you wish to see more details on these types of questions, please refer to the relevant Health and Social Care Partnership/Health Board Report
