

Health and Care Experience Survey 2015/16

Results for Western Isles Health and Social Care Partnership

May 2016, Official Statistics

Western Isles Health and Social Care Partnership

This report gives a summary of the results of the Health and Care Experience Survey 2015/16 for Western Isles Health and Social Care Partnership.

The survey was sent to 4,703 people registered with GP practices in the area.

The survey asks about people's experiences of accessing and using primary care services and was widened in 2013/14 to include aspects of care, support and caring to support the principles underpinning the integration of health and care in Scotland outlined in the Public Bodies (Joint Working) (Scotland) Act 2014.

A copy of the survey is available at:

www.gov.scot/Topics/Statistics/Browse/Health/GPPatientExperienceSurvey/HACE2015-16

940 patients of Western Isles Health and Social Care Partnership sent in feedback on their experiences at the practice. Of the patients that answered questions about themselves:

- 45% were male and 55% were female;
- 7% were aged 17-34, 16% were aged 35-49, 33% were aged 50-64 and 44% were 65 and over;
- 67% did not have any limiting illness or disability.

The survey was commissioned by the Scottish Government as part of the Scottish Care Experience Survey Programme, which aims to use the public's experiences of health and care services to improve those services. The survey was managed by the Scottish Government in partnership with Information Services Division (ISD) of NHS National Services Scotland. The survey was carried out by a patient survey contractor, Quality Health Ltd.

The results of the survey will be used by GP practices, Health Boards, Health and Social Care Partnerships and the Scottish Government to improve the quality of health and care services in Scotland.

National results for this survey and further details on the methods used to generate this report are available at:

www.gov.scot/Topics/Statistics/Browse/Health/GPPatientExperienceSurvey/HACE2015-16

Summary of Results

This section provides the results for those questions which align to the Health and Social Care Indicators.

The difference between the percent positive score for the H&SCP and the Scottish average is shown in the final column. Differences which are statistically significant are marked with an S. Where a comparison has not been tested due to small numbers, this is marked with an NT.

I am able to look after my own health	96%	+2 *
Service users are supported to live as independently as possible	92%	+8
Service users have a say in how their help, care or support is provided	77%	-2
Service users' health and care services seem to be well coordinated	83%	+8
Rating of overall help, care or support services	83%	+2
Rating of overall care provided by GP practice	92%	+5 ^s
The help, care or support improves service users' quality of life	92%	+8

Top Five and Bottom Five Results

The tables below show the top 5 responses (highest percent positive scores in green) and bottom 5 responses (highest percent negative scores in red) for patients at this H&SCP.

Top Bottom 5 | Highest / Lowest Responses

Top 5 Responses (highest % positive scores)

Question	% positive
Patients know enough about how and when to take their medicines	99%
Patients take their prescription as they are supposed to	98%
The receptionists are helpful	98%
Patients know enough about what their medicines are for	98%
Person answering the phone is helpful	97%

Bottom 5 Responses (highest % negative scores)

Question	% negative
Overall rating of how mistakes are dealt with	55%
Caring has had a negative impact on carers' health and wellbeing	31%
The time patients wait for out of hours services is reasonable	25%
Able to book a doctors appointment 3 or more working days in advance	21%
Can usually see preferred doctor	21%

Notes on Interpretation

Results are shown as the percentage of patients who answered each question positively.

The bars illustrate the % positive as green (darker green being very positive and lighter green being positive), and the % negative as red. Where answers are neither positive nor negative, the % is shown in yellow (see below).

		Very Positive	Positive	Neutral	Negative	% Positive 2013/14	% Positive 2015/16	Change from 2013/14	Difference from Scotland
Overall arrangements for getting to see a doctor	2,500	24%	44%	21%	11%	71%	68%	-3% ^S	-3% ^S

The “% Positive...” columns show both the H&SCP 2015/16 and 2013/14 percent positive scores.

“Difference from Scotland” shows the difference between the H&SCP percent positive score in 2015/16 and the Scottish average in the same year, with a plus or minus sign depending on whether it is above or below the Scottish average.

“Change from 2013/14” shows the change in the percent positive score for the H&SCP since the 2013/14 survey.

Differences which are statistically significant are marked with an S.

Where a comparison has not been tested due to small numbers, this is marked with an NT.

The classification of answers as very positive, positive, neutral or negative for each question can be found in the technical report at: www.gov.scot/stats/bulletins/01218

Please note that all percentages are rounded to the nearest whole number. As such, variations of 1% may be observed when performing calculations using the numbers presented.

Later in this report we present results for questions that do not fit into the '% positive' format.

Information Questions

This section shows results for questions that did not fit into the percentage positive format used elsewhere in the report. These tables show the percentage of patients who responded to each answer option. Results for Scotland, and where possible, results from the previous survey are included. If the question was new to this year's survey, the absence of historic results will be indicated by a "-".

Please note: If an expected question does not appear within this section it is because it has been suppressed due to low number of responses. If you wish to see more details on these types of questions, please refer to the relevant Board Report.
